**CORRECTED Re: Research Data Management & Knowledge Synthesis-Unit Report-January 2026**

---

**From** Kimberly Mears <kmears@upei.ca>

**Date** Thu 1/22/2026 1:15 PM

**To** library-council <library-council-group@upei.ca>

## **RDM&KS Unit**

The unit met to discuss the Quality Assurance Action Plan and potential RDM&KS feedback on the recommendations.

### **Systematic Review Service**

- There is ongoing metadata and full-text retrieval work for several Knowledge Synthesis projects.
- KS Projects: 11 “in progress”
- Kim, Keri, John, and Spencer are working on an abstract presentation for the Canadian Health Libraries Association 2026 meeting that is titled Assessing Librarian Involvement and Impact in Knowledge Synthesis Publications at UPEI. Here are some early findings:
  - There are a total of 68 KS (scoping review, systematic reviews, guidelines) publications between 2007 - 2025 by UPEI affiliated faculty.
  - The majority of KS publications are authored by the Faculty of Science (n=31) and Atlantic Veterinary College (n=25).
  - The Faculty of Science published the highest number of open access KS publications (n=27).
  - AVC has highest number of closed access publications (n=18)
  - Faculty of Science has highest number of librarian involvement in KS publications (n=27)
  - 8 out 12 faculties/schools have published KS research
  - Librarians involvement in KS projects was highest in 2020, with 11 publications (1 publication without librarian involvement)

### **Research Data Management**

- Recommendation on the future of [data.upei.ca](https://data.upei.ca) was sent to the University Librarian; distribution of the recommendation to various committees is ongoing.
- In anticipation of the recommendation moving forward, Spencer has been working on ‘migrating’ the educational webpages on [data.upei.ca](https://data.upei.ca) to the Library website.
- The CAAL RDM Committee meeting was canceled this month due to snow day closures across the region.

## RDM&KS Unit

The unit met to discuss the Quality Assurance Action Plan and potential RDM&KS feedback on the recommendations.

## Systematic Review Service

- There is ongoing metadata and full-text retrieval work for several Knowledge Synthesis projects.
- KS Projects: 11 “in progress”
- Kim, Keri, John, and Spencer are working on an abstract presentation for the Canadian Health Libraries Association 2026 meeting that is titled Assessing Librarian Involvement and Impact in Knowledge Synthesis Publications at UPEI. Here are some early findings:
  - There are a total of 68 KS (scoping review, systematic reviews, guidelines) publications between 2007 - 2025 by UPEI affiliated faculty.
  - The majority of KS publications are authored by the Faculty of Science (n=31) and Atlantic Veterinary College (n=25).
  - The Faculty of Science published the highest number of open access KS publications (n=27).
  - AVC has highest number of closed access publications (n=18)
  - Faculty of Science has highest number of librarian involvement in KS publications (n=27)
  - 8 out 12 faculties/schools have published KS research
  - Librarians involvement in KS projects was highest in 2020, with 11 publications (1 publication without librarian involvement)

## Research Data Management

- Recommendation on the future of [data.upei.ca](http://data.upei.ca) was sent to the University Librarian; distribution of the recommendation to various committees is annoying.
- In anticipation of the recommendation moving forward, Spencer has been working on ‘migrating’ the educational webpages on [data.upei.ca](http://data.upei.ca) to the Library website.
- The CAAL RDM Committee meeting was canceled this month due to snow day closures across the region.
